Jerry Windsor	Eaton
Jennie Saulino	Adams 12

-----Minutes-----

Business Meeting:

- **May User Day will be the 19th, Location Adams 12, room Cottonwood/Blue Spruce, topics are**
 - CDE 8:00-9:30 am
 - Infinite Campus 2009.1 from 9:45-11:15 a.m.
 - Please email any questions you have for CDE to Jim Anderson.

District Sharing:

- **Littleton: 2008.1.2** Free space in server using 1 gig a nite. Aurora is running a script to delete temp files everynite. There are other districts who have had the same issues (DCSD). Jeffco's DBA's have gone in and twicked a few things to fix these issues. You can now run 3 applications on your sandbox IC has added Preview, to go with Current and Stages. Jeffco had DPS come and present the 'House Hold Game' with our staff for data entry. There was a lot of good feedback and it adds to some interesting conversation.
- **CBOCES:** Having issues with eligibility report listing all grades not just D's and F's. This is fixed with patch 13. Some applications not executing, mainly Schedule Wizard, run C-Cleaner and a Java clean-up.
- **Adams 14:** Having major issues with unwanted updates. IC is confusing Adams 14 and Adams 12. IC is considering canceling weekly updates. We want to run database backups hourly. Brighton does transaction backups on the ½ hour.
- **Jeffco:** CIC explained to up that you can install a new versions without forcing 'standards' in the gradebook and overwriting current grade books. Just turned on Teacher Messenger just at the high schools and things went really well. We turned on 'Survey', went well also. Littleton has done a couple surveys. Littleton district gave rights to just the registrars for now.

- **Boulder 2008.2.8:** We did an upgrade with no impact to teachers. Schedule Wizard is not allowing to save, which might be a possibly a tool rights issues but doing an upgrade do I will keep you posted.
- **Aurora 2008.2.6:** With the upgrade the identities tab disappeared. Suggestion was to look at campus tools and reselect to show.
- **Widefield 2008.1:** Working on March Report Card, template is fixed now including report.
- **Brighton:** Was going to do upgrade but have too much on plate right now. Did a district AdHoc training and it was very successful. With upgrades we have not seen a problem with Grade books, we use standards. If you are interested in CBLA setup doc email Ann Godfrey.
- **Denver PS:** Upgrading to 2.6 was supposed to do this in Feb but if fell on term, completed over Spring Break. Not able to use eligibility for 3 weeks. Going to do updates 10,11,13 tonight will let you know what happens. SBProgress reports, teachers really like them, we finally got them into IC. CIO group has pushed for National Users Group, it appears it will be a go. CIO's will be meeting tomorrow for more discussion. We need to discuss the CSIS involvement and get input from the entire CSIS group.
