Kathy Knowles	Elizabeth C1
Shelly Washburn	Jeffco
Cindy Dunn	D20
Margaret Taylor	Jeffco
Shelley Tailer	DCSD
Patty Roundy	Aurora

## -----Minutes-----

### District Sharing:

- **Boulder Valley SD;** IC 2008; 1.2 is in the sand box and things seem to be running ok. Created a course requirement "Money Management"; online, it is 12 hours class. We would like a way to show on the parent portal a check box on the transcript a check box to show student has taken this class.
- **CIC;** IC 8.2 has changes to health in the release notes but not in the release. IC's web site has update requests, but is currently having issues and the updates are being addressed.
- **Ft Morgan;** 8.1.3 and 2008.3 is in the sand box. How do you handle early graduates in your district?
- **Elizabeth;** no currently on IC but looking to implement in the fall.
- **Academy D20;** 2008.1.2 In the process of starting an Online Credit Recovery school. D20 will have a show & tell for their Online Central Enrollment process and electronic cum files, date TBA.
- **Littleton SD;** 2008.1 Littleton paid IC to create a environment called Truancy and is accessible from the court system. Posting pass/fail classes has been an issue after any updates.
- **Adams 14;** 2008.1 we will be requesting 2008.1.2
- **DCSD;** 2008.1.3 Implementing SB grading at the middle schools. High volume times we have to off load to other services. Students records now report to Business SVS. IMM needs to be addressed in IC.

- **Eaton;** 2008.1 We have 8.2 in the sandbox have been playing and all seems ok. Posting to transcripts half went and half did not. What is the issue? Could possibly be a volume problem. Also no credit group c, cant' post to transcripts if course it not in a credit group.
- **Jeffco;** Things are running fairly smoothly.
- **CBOCES;** Longmont is still using bubble sheets hoping to get them convinced to go to IC. Do any of you have an 8<sup>th</sup> grade student taking a high school math class? How do you handle this?
- **Aurora;** 2008.1.3 We have 8.2 in the sandbox. We have questions about new health fields "accident" in the health conditions. What are others using these for? This came out in 8.1. Since our upgrade we now have AdHoc timeouts? Suggestions earlier release notes. We will be going to all district SBRC in fall of 09.
- **Brighton;** 2008.1.3 We will be pushing parent portal across the district soon. We are trying to standardize what parents will be seeing. We would like to show more test scores and G/T wants Cogat tests in IC along with ALP. We finally have Messenger up and running. We trained MS/HS last week and all seems to be running well. We will train elementary schools next week. When we have multiple notifications all won't show? Download Page Breeze freeware to use instead of word. Word puts too much 'stuff' in the background.
