-----Minutes-----

Business Meeting:

Conference updates:

- Ann and Von gave an overview of their NY trip to IC conference. Has some good experiences and several suggestions to enhance our conference.
- Adjustments made to the conference schedule.
- Von has session/conference eval forms. Also the vendor, presenter and vendor outline forms.
- We need a separate registration form for CIO's? What is the due date for CIO registration?
- Jackie will take care of Bull pen machines. DCSD and DPS will cover bull pen.
- Adopt a room equipment will consist of power strip, extension cord and projector: DPS-2, Littleton-1, DCSD-1, Widefield-1, Aurora-2, Adams 14-1, Brighton-1, BVSD-1, CIC-1, Academy 20-1, Jeffco-1, IC-1.
- The group discussed how we should be addressed CSIS or CSUG? CSUG because of all the doc's and web address we have out.

District Sharing:

- Littleton 20081.2.6 Cube builder view detail does not work. The district houses server but IC maintains.
- Brighton 2007.2.4 Creating a short cut on the desktop does not work well, short cuts do not pick up enhancements/fixes. ILP bug Needs and Stratagies (editor) removes data from fields because one writes over the other. Hosted
- Adams 12 2007 Oct count export has to make adjustments in sys admin
- Widefield 2007.2.4.7 Elementary report cards 4-6 letter grade includes SB makes a 2 page report card. Working towards all parents using the portal because of Crisis drills.
- BVSD- EDAC, CDE, SPED not all on the same page, would like to see more representation @ EDAC meetings.

- CBOCES 2008.1 Will update tomorrow night. Created an outside source to pull data for Oct count.
- Aurora 2007.2.4 Having utilization issues.
- DPS 2008. SBRC not enough movement on bugs/fixes. Would like to see more solid release dates in March 15 and October 15th. 2008 end of Thanksgiving. Enhancements meeting discussed having everyone on the same version so all districts can do testing on the same version to find issues. Would like to know issues of data missing and where.
