

Minutes of the Colorado Users Group Steering Committee Meeting

June 8 , 2009 8:30 a.m.
Aurora School District #28J

Meeting called by:
Patty Roundy @ 8:30 am

Business items:

The group discussed ideas regarding:

- Send agenda ideas to CSIS before the meeting.
- Send district sharing per district to CSIS before meeting.
- CSIS creating a website to post/search Campus versions issues. Patrick will look at google docs to create.
- CSIS has a wiki : <http://coloradocampus.wikispaces.com>

District Sharing:

Littleton: Currently working on Safety and Discipline report. Campus is not pulling attendance correctly and the grand total is not calculating correctly. Campus seems to under report students. Having problems with the time lines for End of Year due the middle of June before Safety /Disc is not done. We are having problems with our VE135 submission. We are using Alert Now.

St Vrain: Trying to create SBRC's for elementary and CIC is giving conflicting info on how to push out to all elementary schools.

Boulder: We are not going to upgrade because we are waiting for ShoutPoint. We do SBRC at the elementary schools but have had real issues with performance when printing.

CIC: CSIS would like from Campus a list of 'routing maintainece' items to be done. Several Districts have talked to support and they have been told to run maintainece items but no one has this list. Version 2010 will be released June 17th and release notes will be on Friday, June 12th.

Woodland Park: We have not done updates since March because of IT staff changes. We will be doing all our updates in July.

Academy D20: We upgrade to a new server on Friday. Things seem to be working good. The SOCO (Southern Colorado Users Group) is working on a process of integrating Moodle with Campus. For the VE135 report/submission D20 will contact Julie and have her come to our next CSIS meeting and discuss the submission. CSIS will add her to the July agenda.

Douglas County: We are working on the IEP integrations and Central Enrollment. We are working with Campus on the VE135 report. We have successfully created our VE135 to process the report at the push of a button. We will be willing to share the process and code. Will upgrade to 2009.2 in July.

Brighton: We are working on Safety and Discipline. We have 2 schools not totaling correctly, but the other schools are. We are looking at purchasing Alpine for data warehouse. We will be sending out our own news release related to the new 'race ethnicity' information. CDE did a very poor job of getting enough information out.

Greeley: We are going to upgrade this week because of the Race/Ethnicity. We are looking at purchasing Tableu. Littleton has this product and you can create interactive 'workbook' , you can also see one school and entire district, this product allows export to excel and easy to manipulate data.

Widefield: We are currently working on the VE135 report. We are looking at different vendors for dialer for emergency notification. We are using the IEP in campus and things seem to be going well. The End of Year report

pulls a header record from detailing records in the front end which is fine, but the back end has deleted records still populated.

Jefferson County: We did an RFP for a dialer system and we awarded the contract to School Messenger. Our district is working on a uniform elementary report card, principles are meeting this week. Still having posting issues with transcripts, duplicates or triplicates postings. This has been an on-going issue for several years. We have has some grading tasks disappear. DCSD had issues with posting but it had to do with grading tasks setup.

CBOCES: We will be upgrading this summer but it is business as usual.

Aurora: We are working on SBRC's. We are having issues with Schedule Wizard it get stuck and won't perform but only at a couple HS's.

Discussion: Widefield; Does anyone delete trials in Schedule Wizard? Some districts do and don't. Does anyone delete the user log files? Reason we want to delete, these files get very large. Some districts do and some don't.

Attendees:

| | |
|-----------------|------------------|
| Von Kiyomi | Falcon SD 49 |
| Carrie Sullivan | Littleton |
| Liz Smith | Widefield |
| Misty Flick | Greeley |
| Ann Godfrey | Brighton |
