

CSIS Meeting Minutes December 2009

Attendees:

Shelley Tailer (Douglas County), Carrie Sullivan and Sue Warrick (Littleton), Patrick Mount (Thompson) Jackie Twehues (Boulder Valley), Mario Cataya, Margaret Taylor (Jefferson County), Von Kiyomi (Falcon), Tina Madison (Woodland Park), Shellie Scobee, Kathy Knowles (Elizabeth), Anny Godfrey (Brighton), Kathy Green (Centennial BOCES), Liz Smith (Widefield), Patty Roundy (Aurora), Shelly Hortsmann (Platte Canyon), Guy McPherson Academy

Pre Coded Labels Discussion

Currently Pre-Coded Labels in Infinite Campus are not working as expected. Pre-Coded Label Report is used for CSAP Labels. The issue is that the Pre-Coded Labels now require that the **Disability Type** in Enrollment → Special Ed is set to “NULL” by default, if the value is NULL, then a label will not print for that student. To get the label to print, it needs to be set to: **00: None**. An update to the field in Infinite Campus Enrollment will fix the issue.

CSIS members are meeting with Rudy Klutz from Infinite Campus to address this issue as well as : ELL continuous field is supposed to be blank needs to be a space instead of a Zero, also US Enter Date. From Demographics or Enrollment?

Additionally, Campus has been contacted to create a Colorado localization document. A localization document will help School Districts (and Infinite Campus) know which fields are being used for which state report.

EDAC

A board member of CSIS needs to get on the EDAC Mailing list and attend meetings if possible to understand the impact of changes that are proposed or getting implemented. Currently we are not getting notice. This needs to be collaboration between CSIS, Rudy Klutz and CDE.

Summary:

- Should we create a focus group for this data? EDAC Colorado State Reporting
- Clear communication between CDE , Districts, IC, EDAC
- Invite Rudy to come to Conference or May users day

Infinite Campus Updates/Patches

2009.20939.2 - Aurora

No Issues . Upgrading to 2010 in early 2010.

2010.0943.1 Centennial BOCES

No Issues

2010.0947.1 Widefield

Patch affects cube builder and Data Warehouse links.

.0947 Previously broke push between plan and Enrollment for Special ED. This is now fixed.
Also if a student left and came back you could not see student's schedule.

2009.20939.2 Aurora, Brighton

May wait to upgrade until after Holiday break for 2009.0947 then upgrade later to 2010 for early winter (Aurora). Brighton is upgrading to 2010 over Holiday Break.

2009.043 Falcon

Upgrading to 2010 during Break. Issues with Getting Messenger running, appears to be port or setup related.

2009.0923 Boulder Valley

Upgrading to 2010 January

2010.0943.2 Woodland Park

No Issues

2010.0943.4 Academy

Active today no longer working

2010.0943.7 Littleton

No Issues

2010.0947.1 Liz Smith Widefield

Updates may break cube builder or Data Warehouse links. Put in a ticket and IC/CIC will fix it

Other Issues/Discussions

CDE Mandated Common Course Codes any movement on this topic? Not yet.

Naviance is a career path system. This is a tool for Counselors. Course information and transcript data importing from Campus. <http://www.naviance.com/> Several Districts are using Naviance: Aurora, JeffCo, Douglas and others.

Medicaid Consortium export. Is anyone using this? Yes Most Districts are using this instead of Medicaid billing in IC.

Parental consent dates. How are other Districts handling this process?

Custom Report Cards for High School Report Cards taking a long time to run. Solutions: Use Data Warehousing or run job at night. Don't use custom sorts (sort by grade or teachers). File locks as well. Call Bob at Aurora or contact Jackie from BVSD.

Jefferson County did a Gradebook Survey. Most using gradebook, grading by student or task, not all using gradebook for assignments. 75 Character limit on gradebook descriptions.

Boulder Valley would like to offer a a product knowledge class in Spring 2010.

New Campus Updates. A quick survey indicates that most all school Districts are going to use Maintenance.

Using Emergency Notifications with with Shoutpoint seems to work well.

Littleton Looking into LDAP integration. Using FName lastname but there is a character limit of minimum 6 characters. There is a LDAP GUID That you can populate. Need to have campus remove the minimum.

Please not that you do not need to use a separate account for staff members who are also parents. Just need to make sure you use the correct url. Check Assign Parents who are staff **Campus** and they automatically have **Portal**.

Douglass County has an RTI Focus group Creating Tabs in IC. Would like to have an interface and then have data in IC. . Put together a list of all the things that have been done to improve performance and problems. Contact Shelley Tailer at Douglas County for information. Bad query or adhoc can bring infinite Campus down.

Presentation from EZ School Registration/SRC Solutions

http://www.src-solutions.com/src_prodsrcezschoool.htm

This company can provide Online Enrollment for those Districts who cannot create their own.

Functionality:

Multi language support. All pages completely customizable, all questions can be changed. Can download street data base from US Postal Service.

Scanning birth documents, immunization cards, drivers license, etc.

Online signature pad.

Cons:

\$5 per student or a group purchase.

Have not integrated with Infinite Campus – Who's going to go first?
